Enterprise AI Content Leader

Transformative publishing leader with deep expertise in enterprise content modernization, AI-driven insight delivery, and large-scale cross-functional team leadership; committed to redefining how organisations produce, structure, and scale knowledge for the world's most demanding executive audiences.

Profile

Visionary content modernisation executive with a track record of architecting enterprise-scale content ecosystems that deliver insight at speed and scale. Experienced in leading the end-to-end transformation of content creation models, from legacy workflows to AI-powered, LLM-ready delivery pipelines. Drives bold content strategies that serve CXO-level audiences, aligning publishing innovation with broader business goals and brand authority. Deep expertise in taxonomy, information architecture, and structured content design, enabling scalable, high-quality output across global markets. Proven ability to build, inspire, and lead diverse cross-functional teams spanning content engineering, editorial, UX, and product. Skilled in executive stakeholder management and in translating complex strategic vision into measurable operational outcomes. Committed to establishing industry benchmarks for content innovation, authority, and client engagement.

Professional Experience

Intuit, London, UK2026- current

AI Content Leader - International

Leading a global team of content designers across EMEA, CA, LATAM, and APAC to deliver AI-first content experiences for millions of QuickBooks users worldwide.

Snyk, London, UK2024 - 2026

Head of Technical Writing and Product Learning, R&D

Leading the global R&D Content team, consisting of content engineering, product learning, and technical content within R&D. Overseeing the development and optimization of product technical content and related experiences while mentoring team members. Driving strategic content initiatives across divisions, including support case deflection, collaborating with cross-functional teams, and creating strategic processes with the latest AI-powered solutions. Successfully managing stakeholder relationships while championing a collaborative approach to content excellence.

Qatalog, London, UK2024 - 2024

Director of Content and Communications

Partnered with CEO to develop robust content marketing plans to bolster market positioning and foster company growth. Managed a global team of content creators, writers, and communication professionals, providing guidance, feedback, and support. Led the design of a new product feature messaging framework within 4 months. Ensured consistency and clarity in the company's messaging and tone across all channels and materials.

- Boosted brand awareness by 15% within 3 months through the creation and execution of a unified content and communications strategy.
- Amplified content output by 400% by assembling and guiding a high-performing team across content, marketing, and social media.
- Decreased project turnaround time by 25% by instituting efficient cross-departmental collaboration processes.

Anaplan, London, UK

2018 – 2023

Global Senior Director of Content Services

Provided a broad spectrum of services, including content research, modelling, taxonomy design, technical content, digital experiences (including a community site), product development, and localization. Created and executed a global content strategy that aligns with the company's business goals. Prepared content calendars and maintained workflows for timely delivery of content that meets the needs of various stakeholders and clients.

- Achieved an 80% reduction in translation time and saved 2 FTE roles by engineering an in-house API framework for automating content localization.
- Cut publication time from 2 weeks to 2 minutes and enhanced satisfaction for customers, support analysts, and content creators by orchestrating the migration to a new CMS.
- Drove a 25% year-over-year sales increase in Japan through the leadership of a successful Japanese localization initiative, surpassing performance in other global markets.

Apple, London, UK

2007 - 2017

IT Communication and Documentation Manager - 2012 – 2017

Led cross-functional team within IS&T department, managing designers, content creators, and software engineers to deliver high-quality communication, documentation, and application experiences. Analyzed and refined documentation processes to improve accessibility and comprehension for global teams. Collaborated with UX and software development teams to integrate communication strategies into user experience design. Provided strategic leadership in content creation and process improvement, fostering a culture of innovation and efficiency. Managed a \$2M+ vendor budget.

- Developed web application for standardized email communication, achieving an 80% improvement in brand consistency.
- Reduced support calls by 15% through the implementation of new email template system.
- Co-led innovation program that resulted in new product features and a 20% increase in employee engagement.

Senior Technical Trainer and Instructional Designer - 2007 – 2012

Served as a member of the Field Service Engineering Team, with duties to train Apple Retail Store Geniuses and specialized technical teams on a global scale. Collaborated with cross-functional teams to align training content with hardware engineering advancements and company objectives. Streamlined training processes, incorporating learning principles and instructional design methodologies to optimize knowledge transfer and skill acquisition.

- Enhanced learning efficiency by 25% for non-English speaking employees by developing a multilingual training website.
- Improved on-site issue resolution by 20% and increased promotion rate to Genius role by 15% through the creation of a technical training program for shop-floor specialists.
- Increased learning speed for regional students by independently coding in HTML, JavaScript, PHP, and MySQL to create a multilingual training website, with trainers providing content translations pro bono.
- Designed a training program for Apple shop-floor specialists by collaborating with Retail and Engineering stakeholders, leading to enhanced customer support and a program that served as a pathway to promotion for specialists to the Genius role.

Additional Experience: Mac Genius - Apple - London, UK, DJ, Pianist, Producer, Stage Manager - Self-Employed – Music Industry

Volunteer Work: Organizing diverse fundraising events to support charities assisting individuals, including my daughter, who have Down's syndrome. These events range from charity auctions to engaging social activities, all aimed at increasing awareness and gathering vital resources for the Down's syndrome community.
